About me

Management graduate with 3+ years of hands-on experience in Quality Assurance across web and application-based projects, specializing testing in functional, UI/UX, API, and system testing. Skilled in identifying critical bugs, validating business flows, and ensuring product quality through detailed and structured testing processes. Experienced in collaborating closely with developers and cross-functional teams using effective communication and analytical problem-solving to deliver reliable digital products. Passionate about continuous learning in technology and committed to improving system performance, user experience, and overall project success through quality-driven approaches.

Professional Skill

Problem Solving

API Testing (Postman) | Performance Testing (JMeter Basic) | Browser Developer Tools | Inspect Element | Database Validation | Microsoft Office & Google Workspace | Production Planning | Administration | IT Solution & System Analysis

Communication

Have discussions, and do calibration with the team every week, to practice public speaking and be able to equate one another's perceptions.

Communicating with customers or clients both by email or media

Organization

Lead the team to continuously develop their skills, so that the contributions and motivation given can result in achievements for the company

Use G-sheets to organize and track team performance metrics as performance track records and evaluation materials, and include these metrics in weekly reports as management reports

Productivity and Technical

Microsoft Office & Google Workspace | Postman & API Testing | SaaS Tools | JMeter (Basic Performance Testing) | Browser Developer Tools / Inspect Element | Basic SQL & Database Validation | Production Planning & Administration | IT Solution & System Analysis | Client Relationship Management | Analytical Thinking & Problem Solving | Content Development | Artificial Intelligence

Apr 2024 – Dec 2025

Tech Stack:

Postman, Redmine (SaaS), Jmeter

Highlights:

- Validated embedded WebView integrations across BTN mobile applications
- Functional, Compatibility, Navigation Flow, Redirect, and Error Handling Testing
- Cross-platform validation for page rendering, session handling, and WebView behavior consistency

Key Systems:

WebView Integration, Mobile Navigation, Session Management, Redirect Handling, Error Validation

4. Sitamoto.AI — QA Engineer

May 2026 - Present

Platform:

Web Admin, CRM System, AI Dashboard, Landing Page

Testing Scope:

- Functional, CRUD & Cross-Browser Testing
- CRM Workflow & User Management Validation
- AI Learning & Study Module Testing
- Dashboard, Analytics & Compatibility Testing
- End-to-End Business Workflow Validation

Key Features:

CRM System, AI Learning Platform, Study Management, Analytics Dashboard, User Management

5. Talent Go - QA Engineer

Dec 2025

Tech Stack:

Notion, Web Platform, Database

Platform:

Web Admin, Landing Page, Talent Database

Testing Scope:

- Functional, CRUD & Search Validation
- User Access Control & Data Verification
- Landing Page & Cross-Browser Testing
- End-to-End Talent Management Workflow Testing

Key Features:

Talent Database, User Access Management, Search System, Landing Page, Data Management

6. EZ Recruitment - QA Engineer

Sept 2025

Tech Stack:

Redmine (SaaS)

Platform:

Web Admin, Landing Page

Highlights:

- Functional, Compatibility, Navigation Flow, Redirect, and Error Handling Testing
- Cross-platform validation for page rendering, session handling, and WebView behavior consistency

Key Systems:

Session Management, Redirect Handling, Error Validation

7. Kelola HR — QA Engineer

Jul 2025 - Present

Production Support & Quality Assurance

Tech Stack :

Redmine (SaaS), Test Flight, App Distribution

Platform:

Web Admin, Mobile Apps (iOS & Android)

Testing Scope:

- Functional, CRUD, Compatibility & Cross-Platform Testing
- Attendance, Leave Request & Employee Data Validation
- Notification System & Workflow Testing
- Mobile & Web Synchronization Validation

Key Features:

Attendance System, Leave Management, Employee Records, Notification System, HR Management

8. Texio.id Landing Page — QA Engineer

Sep 2024

Tech Stack :

Click Up

Platform:

Website, Mobile View (iOS & Android)

Testing Scope:

- UI/UX, Responsive & Cross-Browser Testing
- Layout Consistency & CTA Validation
- Mobile View & Compatibility Testing
- End-to-End User Journey Validation

Key Features:

Landing Page, Responsive Design, CTA Flow, Mobile Optimization, Cross-Device Compatibility

9. Sales Management System (SMS) – Meefa Solution — QA Engineer

Sep 2024

Tech Stack :

Click Up

Platform:

Web Admin

Testing Scope:

- Functional, CRUD & Dashboard Testing
- User Access Control & Sales Pipeline Validation
- Reporting & Sales Tracking Verification
- End-to-End CRM Workflow Testing

Key Features:

CRM System, Sales Pipeline, Dashboard Reporting, User Management, Sales Tracking

10. PUK Dunlop – Media Reaksi Surindo — QA Engineer

Dec 2024

Tech Stack :

Click Up

Platform:

Web Admin, Mobile App (Android)

Testing Scope:

- Functional, CRUD & Compatibility Testing
- Reporting & Information Delivery Validation
- Mobile & Web Workflow Testing
- User Access & Public Information Validation

Key Features:

Employee Information System, Reporting • Information Management, Mobile Access, Internal Communication

Certification

Revo U - 2024

Learned various development fields including Digital Marketing, Data Analysis, and Product Management through RevoU Mini Course programs.

Digital Marketing case study

Gained insights into Digital Marketing strategies, including product marketing, market analysis, and problem-solving in digital business operations, enhancing my understanding of technology-driven business development.
